The Child – The Heart of the Matter

Introduction

Early childhood education and care centre means premises used regularly for the education and care of 3 or more children (not being children of the persons providing the education or care, or children enrolled at a school being provided with education or care before or after school) under the age of 6 –

- (a) by the day or part of a day; but
- (b) not for any continuous period of more than 7 days.¹

Licensed early childhood education and care centre (“centre” or “service” for the purposes of this document) means an early childhood education and care centre in respect of which the service provider holds a current licence issued under regulations made under [section 636](#)

Early childhood education in licensed centres aims to promote young children’s learning and development. Key mechanisms to ensure that centres provide a minimum standard of care, and to encourage provision of high quality care and education include:

- *The Education (Early Childhood Services) Regulations 2008*² setting minimum standards primarily for curriculum, qualifications, ratios, service-size, premises and facilities, health and safety practices, management and administration. The purpose of these minimum standards is to ensure the health, comfort, care, education, and safety of children attending licensed centres and therefore to establish the level of quality education and care that one would expect to find in a licensed centre;
- Licensing, intended to provide public assurance that a centre is meeting the standards established in the regulations, and guarding against entry of services below the minimum standard into the early childhood centre education market;
- The *Licensing Criteria for Early Childhood Education and Care Centres 2008* which are deemed regulations prescribed by the Minister of Education, and that are used by the Secretary of Education to assess compliance with regulated standards of education and care;
- The *Early Childhood Education Curriculum Framework*³ based on *Te Whariki*, which is New Zealand’s curriculum for early childhood education and which provides guidelines for consistent and high-quality early childhood programmes; and

¹ Section 10 Education and Training Act 2020

² Note this Regulations continue to apply under clause 4, [Schedule 1 Transitional, savings, and related provisions](#). Also note; [Schedule 26 Consequential amendments and revocations](#) to the Regulations.

³ *New Zealand Gazette*, 4 September 2008, No 136 at page 3617.

- The involvement of parents who may actively seek information about the licensed centre and its work with children, take part in management and decision-making or participate in and monitor programmes.

Another key mechanism used to ensure that licensed centres meet the minimum regulated standards of education and care is external evaluation by the Education Review Office (ERO). Review reports prepared by ERO are used by staff, management, parents and government officials to inform their understanding of the quality of care and education in licensed centres and the sector as a whole.

The legal framework described above provides a baseline for all ‘service providers’ (the body, agency, or person who or that operates the centre). ERO wants to know that the ‘licensed service provider’ is taking all reasonable steps to meet the minimum standards to ensure the health, comfort, care, education, and safety of children attending the licensed centre. The ‘licensed service provider’ is the holder of a licence, and in relation to a licensed early childhood service...the holder of a licence in relation to that service. (For the purposes of this document the licensed service provider may also be referred to as “the service provider”.)

High quality evaluation contributing to high quality education

Licensing and Compliance Issues

Services must meet licensing criteria as well as other regulatory requirements contained in the regulations in order to gain and maintain a licence and receive government funding.

The Education (Early Childhood Services) Regulations 2008, should therefore be read in conjunction with the *Licensing Criteria for Early Childhood Education and Care Centres 2008* and the *Early Childhood Education Curriculum Framework*.

Compliance with regulatory requirements is clearly an integral part of the provision of high quality care and education.

ERO places significant reliance on the information given by service providers as to whether or not they are taking all reasonable steps to meet their legal obligations. Where service providers can provide evidence that they are complying with legal requirements, then compliance is not the major focus of the review. Instead ERO is able to focus on the quality of the programme, the quality of adult/child interactions and the learning environment and the impact of these on outcomes for children attending the centre.

Service providers and **contact persons**⁴ are asked to provide assurance to ERO about legal compliance. Where there are areas of non-compliance, service providers will be asked to advise what action they are taking to achieve compliance.

In order to help with this process, ERO has developed these *Guidelines for Centre Assurance Statement* and *Self-Audit Checklists* containing:

a brief outline of the regulatory requirements with which licensed centre service providers must comply that are of key interest to ERO;

checklists to be filled out by service providers and management as part of a self-review process to assist ERO in determining whether each service provider is complying with regulatory requirements; and

an assurance statement to be signed by each service provider and contact person providing evidence of the service provider's compliance (or otherwise) with regulatory requirements.

The completed checklists and assurance statement are used by ERO in the scoping and planning stages of the review. The detailed issues for evaluation are determined at the beginning of the review following a discussion with the service provider.

Note: The *Guidelines for Centre Assurance Statement* and the *Self-Audit Checklists* are not intended to be exhaustive of all relevant legislation and requirements (such as those provided in Ministry of Education Circulars and other documents). Information in the *Guidelines* may not

Statement of National Education and Learning Priorities [NELPS]

The Statement of National Education and Learning Priorities (NELP) sets out the Government's priorities for education that will ensure the success and wellbeing of all learners. They are statutory documents issued under the Education and Training Act 2020 that direct government and education sector activities towards the actions that will make the biggest difference, and ensuring that we are able to strengthen the education system to deliver successful outcomes for all learners/ākongā.

The NELP priorities will help create education environments that are learner-centred, and where more of our learners, and especially more of our Māori and Pacific learners, are successful. Therefore, they encourage all places of learning to focus on:

- ensuring that they are safe and inclusive and free from racism, discrimination, and bullying
- strengthening the quality of teaching our learners receive to giving our learners the skills they need to succeed in education, work and life
- collaborating more with whānau, employers, industry and communities
- taking account of learners' needs, identities, languages and cultures in their practice, and
- incorporating te reo Māori and tikanga Māori into everyday activities.

Early Childhood Education Curriculum Framework

The Early Childhood Curriculum Framework (Curriculum Framework) for licensed centres is based on *Te Whāriki: He Whāriki Mātauranga mō ngā Mokopuna o Aotearoa*, which is New Zealand's curriculum for early childhood education. *Te Whāriki* sets out the learning experience goals for children from birth up to school age. It identifies what a child needs to know and use later in life. It is envisioned as a mat with four principles interwoven with five strands.

The four principles are:

- **Empowerment / Whakamana** - giving the child the power to learn and grow,
- **Holistic Development / Kotahitanga** - learning as a whole rather than in separate subjects,
- **Family and Community / Whānau Tangata** - linking with the child's family and community,
- **Relationships / Ngā Hononga** - learning by responding and doing things alongside others.

The five Strands are:

- **Well-being / Mana Atua** - having a safe and healthy environment in which to grow and learn,
- **Belonging / Mana Whenua** - feeling like they belong,
- **Contribution / Mana Tangata** - feeling valued and encouraged to take responsibility,
- **Communication / Mana Reo** - learning to express themselves with others in a variety of ways,
- **Exploration / Mana Aotūroa** - learning by doing.

The purpose of the Curriculum Framework is to provide the basis and context for specific curriculum regulatory requirements in the Education (Early Childhood Services) Regulations 2008 relating to the standards of education and care and to the associated curriculum criteria. The Curriculum Framework is made up of the English and te reo Māori versions of the principles and strands from *Te Whāriki*⁵.

Each licensed centre will develop its own programmes to implement *Te Whāriki*. The *Licensing Criteria for Early Childhood Education and Care Centres* outlines how service providers must comply with the standards.

The licensed service provider must implement the principles and strands set out in the Curriculum Framework.⁶

The service provider is also required to meet the curriculum standard under regulation 43 of the Education (Early Childhood Services) Regulations 2008, and produce specific documentation to

demonstrate compliance with the *Licensing Criteria for Early Childhood Education and Care Centres 2008* consistent with the prescribed curriculum framework to assess the curriculum standard.

Schedule 4 of the Education (Early Childhood Services) Regulations 2008 – Activity Spaces

Schedule 4 specifies that licensed centres are required to have 2.5 square metres, per child, of indoor activity space. Indoor space is calculated by excluding the space occupied by all fittings, fixed equipment and goods. It excludes passage ways, toilet facilities, staff rooms, specific sleeping areas for children under 2 years of age and other areas not available for play.

The size requirements for outdoor space will depend on the type of early childhood service. Schedule 4 specifies the licensed centre will require a minimum of 5 square metres per child, or a minimum number of square metres per child determined by the Secretary of Education under regulation 54(3).

Building Act 2004

The Building Act establishes a series of minimum safety standards (building regulations), which must be complied with. The purpose of these regulations is to ensure all new buildings and alterations are constructed to a standard that ensures the safety of the occupants.

The purposes of the Building Act 2004 (Section 3) are to provide for the regulation of building work, the establishment of a licensing regime for building practitioners, and the setting of performance standards for buildings, to ensure that-

- (a) people who use buildings can do so safely and without endangering their health; and
- (b) buildings have attributes that contribute appropriately to the health, physical independence, and well-being of the people who use them; and
- (c) people who use a building can escape from the building if it is on fire; and
- (d) buildings are designed, constructed, and able to be used in ways that promote sustainable development.

Sections 118 to 120 of the Building Act require building owners to ensure access, facilities and signage are in place to cater for the needs of disabled staff, children and visitors when constructing a new building or altering any building.

Criterion PF3 requires licensed centres to conform to any relevant bylaws of the local authority and the Building Act 2004.

Licensed centres are also required to have the following documentation:

1. Code Compliance Certificate issued under section 95 of the Building Act 2004 for any building work undertaken, or alternatively any other documentation that shows evidence of compliance.
2. Current Annual Building Warrant of Fitness (if the premises require a compliance schedule under section 100 of the Building Act 2004).

Resource Management Act 1991

This Act may require compliance before the premises are used as a licensed centre and before its buildings are altered or extended. This is the responsibility of the owner of the proposed premises.

Introduction

The service provider is required to meet the health and safety practices standard under regulation 46 of the Education (Early Childhood Services) Regulations 2008. In addition the service provider must comply with the certification criteria and produce supporting documentation as set out in the *Licensing Criteria for Early Childhood Education and Care Centres 2008 – Health and safety*.

The minimum health and safety practices in regulation 46 of the Education (Early Childhood Services) Regulations 2008 are set out below, followed by a summary of the criteria against which compliance will be assessed.

Regulation 46 – Health and safety practices standard: general

- (1) The health and safety practices standard: general is the standard that requires every licensed service provider to whom this regulation applies to—
 - (a) take all reasonable steps to promote the good health and safety of children enrolled in the service; and
 - (b) take all reasonable precautions to prevent accidents and the spread of infection among children enrolled in the service; and
 - (c) take all reasonable steps to ensure that the premises, facilities, and other equipment on those premises are—
 - (i) kept in good repair; and

- (ii) maintained regularly; and
 - (iii) used safely and kept free from hazards; and
 - (d) take all reasonable steps to ensure that appropriate procedures are in place to deal with fires, earthquakes, and other emergencies.
- (2) Each licensed service provider to whom this regulation applies must comply with the Health and safety practices standard: general.

Children's Act 2014 – Child Protection Policy

The Children's Act 2014 requires state sector agencies who work with children, and the organisations they fund, to have child protection policies. As ECE services are funded by the Ministry of Education, service providers will need to work towards meeting these requirements. The policy needs to contain provisions on the *identification and reporting of child abuse* and neglect. New guidelines have been launched to help service providers.⁷ The guidelines include a review tool to help identify gaps in current policies, information about what to include in a new policy, and example policies.

Food Act 2014

ECE services that provide meals to children will need to meet the requirements of National Programme 2 under the Food Act. Services that only carry out minimal food handling (example

⁷ *Safer Organisations, Safer Children* from Children's Action Plan website – www.childrensactionplan.govt.nz; [Children's Act 2014 - a practical guide](#); [Children's \(Requirements for Safety Checks of Children's Workers Regulations](#)

cutting fruit and providing crackers and spreads) or where children bring lunchboxes are exempt from the Food Act.⁸

Health and Safety at Work Act 2015⁹

Under this Act, the ECE service as the person conducting a business or undertaking (PCBU) holds the primary duty of care for, and manages risks to, the health and safety of workers and others arising from the work of the school. The ECE service will exercise its primary duty of care by ensuring the health and safety of:

- its workers (e.g. teachers, managers, administrators, volunteer workers etc.) while at service and on excursions and outside the ECE premises
- other workers who are influenced or directed by the ECE service
- others (e.g. students/children, parents, members of the public, and visitors to the premises), by ensuring they are not put at risk from work carried out by the ECE service.

Officers are individual members of the ECE service occupying a position that allows them to *exercise significant influence* over the management of the service. It will depend on the size and structure of the individual service, and whether the individual exercises *significant influence* over the management of the ECE service. Their role is to exercise due diligence, which means that they must take reasonable steps to ensure that the ECE service (as the PCBU) meets its health and safety obligations.

There are a number of things your ECE service can do to comply:

- familiarise yourself with the key requirements of the legislation
- review your health and safety policies and practices
- identify health and safety risks in your workplace (a workplace includes any place where a worker goes, or is likely to be, while at work) and take all practicable steps to prevent these from causing harm
- make health and safety part of your workplace culture
- visit the MOE's dedicated health and safety webpage: www.education.govt.nz/ministry-of-education/specific-initiatives/health-and-safety/ for guidance and updates

Health Immunisation records

Service providers are required to keep immunisation registers to record matters relating to the Health (Immunisation) Regulations 1995, for children aged 15 months and over attending the centre.

Refer - [Immunisation Guidelines for Early Childhood Services and ...](#)

⁸ New ECE services must meet the requirements from 1/3/2016. Existing services must have applied to their local Territorial Authority for registration by 31/3/2017. Refer - [Food safety for ECE services \(Food Act requirements\)](#)

⁹ This Act applies from 4 April 2016. Fire and Emergency New Zealand Act 2017/Fire Safety, Evacuation Procedures and Evacuation Schemes Regulations 2018

All centres need to have an evacuation procedure or scheme in place to ensure the safe and efficient evacuation of occupants in a fire emergency. The safe evacuation of persons with disabilities to an external place of safety is a critical requirement. Centres must place signs and notices at appropriate points across the school so that the evacuation procedure is clear.

The centre premises must have a current Fire Evacuation Scheme documentation approved by Fire and Emergency New Zealand (Criterion HS4 of the Health and safety practices standard).

Evacuation drills are required at intervals of not more than 6 months (Regulation 17(g)(i)), and notices are required to be posted in buildings showing how to get out of the building and the evacuation procedure.

Building (Pools) Amendment Act 2016

The above Act came into effect on 1 January 2017 and repealed the Fencing of Swimming Pools Act 1987 and included new pool safety provisions in the Building Act 2004.

The following information is from MOE website:

You must have fences and signage that meet the legal requirements and design standards set out in:

- [Health and Safety at Work Act 2015](#) (Legislation website)
- [Building Act 2004](#) (Legislation website)
- [Building Code \(including the new Clause F9 for pool fencing\)](#) (Building Performance website)
- [NZS 8500:2006 'Safety barriers and fences around swimming pools'](#) (Standards NZ website)

Smokefree Environments and Regulated Products Act 1990

The above Act requires centres to have smoke-free and vaping buildings and grounds at all times. The total smoking and vaping ban includes centre grounds during weekend sports games, fund-raising activities, community days or evening classes, as well as when the grounds or buildings are rented out by other groups. Service providers should also display smoke-free and vaping notices at every entry gate or building entrance, and that they take all reasonably practicable steps to ensure there is no smoking and vaping on their premises.

No vaping notices

As of **11 May**, all schools, early childhood education facilities and care centres must display a notice stating that smoking and vaping within the premises is forbidden at all times.

Make sure that the surface is clean and prominently display the stickers on windows or doors at or immediately inside:

- every entrance to the premises
- every entrance to every building or enclosed area on the premises, excluding buildings and areas not usually in use.

These locations are the same as previously required for Smokefree notices under the Smoke-free Environments Act. The 'no vaping' notices are intended to be displayed along with existing 'no smoking' notices.

If you need additional stickers, these are available for [order through the Smokefree website](#).

Civil Defence

Service providers should have written documentation of a procedure, and basic supplies for dealing with emergencies that are consistent with national or regional Civil Defence guidelines (see Criterion HS7 of the Health and safety practices standard) to provide a safe environment for children and parents who are present. The building in which the service meets should have a civil defence emergency kit.

Adults providing education and care must be familiar with relevant emergency drills and regularly carry these out with the children. The centre should have documentation of a record of emergency drills carried out with children (Criterion HS8 of the Health and Safety practices standard).

Children’s worker – Safety Checks

Children’s worker safety checks became law in the Children’s Act 2014 (the CA) and applies to core children’s workforce roles.

Briefly, the following checks must have been completed where the service provider is seeking to employ or engage a new children’s worker¹² (including as a contractor) for core children’s workforce roles, and non-core children’s workforce roles:

- Identity verification - proof people are who they say they are, including previous identities
- Information requirement – reliable information about history and behaviour, which may include reference checks, interviews, and Police vetting
- Risk assessment – considered judgement based on the information collected
- Periodic re-checking – information to be updated and reassessed every three years.

The CA prohibits people with certain child abuse, sexual offending, or violence convictions from working in core worker roles. These are specified in the Act. Anyone convicted of the offences listed in the Act will not be able to work in core worker roles unless they are granted an exemption. The Ministry of Social Development manages applications for exemptions.

- (i) revoke various rules (see [Part 10](#)).

(2) This rule is by way of explanation only, and, if any other provision in the Act or rules conflicts with it, the other provision prevails.

¹³ These rules were amended on 29 September 2018, and continue to apply under clause 4, Schedule I of the Education and Training Act 2020.

Fit and Proper Persons

Regulation 8 of the *Education (Early Childhood Services) Regulations 2008* requires the Secretary for Education to consider whether the service provider is a *fit and proper* person, based on matters which are identical to those set out in the statutory declaration made by the service provider at the time of application for licence under Regulation 7.

Under Regulation 35, the service provider who has applied for a licence or is the holder of a current licence must advise the Secretary for Education, as soon as practicable, of any change of their circumstances of the kind referred to in Regulation 7 and made in the statutory declaration, which among other things, includes any previous conviction for any offence involving harm to children, violence, or fraud.

Human Rights Act 1993

The Human Rights Act is designed to help ensure that people are treated fairly. It prohibits certain discriminatory practices in relation to the employment and treatment of employees. The grounds of discrimination in section 21 of the Act include religious belief, ethical belief, colour, race, ethnic or national origins, disability, age, political opinion, sex, employment status, family status, sexual orientation and marital status.

Discrimination can be direct or indirect. Direct discrimination occurs when a person is treated unfairly or less favourably than another person in the same or similar circumstances. Indirect discrimination occurs when an action or policy that appears to treat everyone in the same way, actually has a discriminatory effect on a person or group.

Centre management have obligations to ensure staff are not subjected to sexual harassment. Under the Human Rights Act, employers can be liable for sexual harassment committed by their employees. Centre management can work towards providing a safe physical and emotional learning environment for all by developing prevention of sexual harassment policies and procedures for children and employees.

The Act uses an expanded definition of 'employment'. It applies to employees, voluntary workers, people seeking work, and contract workers. This means the Act applies to a number of people who are not covered by other employment legislation, such as the Employment Relations Act 2000, which only applies to employees. The Act covers advertisements, job applicants, employment opportunities and conditions for employees and how employees leave their employment.

Section 102 of the Employment Relations Act 2000 provides for personal grievances under that Act. Under section 103 a personal grievance can be made because of sexual harassment by an employer or a representative of an employer.

Employment Relations Act 2000

The object of the Employment Relations Act 2000 is to build employment relationships through the promotion of good faith in all aspects of the employment environment and of the employment relationship.

Individual and collective employment agreements

Management should ensure they are familiar with the terms and conditions of any employment agreement that governs their relationship with their employees.

The Teaching Council is responsible for the issue and renewal of practising certificates under Part 5, [Subpart 4—Teaching Council](#) of the Education and Training Act 2020.

The Code of Professional Responsibility¹⁴ applies to all certified teachers and those who have been granted a Limited Authority to Teach, in every role and teaching context. It is a set of aspirations for professional behaviour, and is binding on all teachers who hold a practicing certificate and all authorised persons.

Privacy Act 2020

Service providers must ensure that they are familiar with the principles of the Privacy Act 2020 including mandatory notification of privacy breaches when it applies from 1 December 2020, and that there are policies and procedures in place to ensure personal information is collected, stored, used and disclosed in accordance with those principles.

Centre Assurance Statement and Self-Audit Checklists
For Services Licensed under 2008 Regulatory Framework

June 2021

How to fill out the Self-Audit Checklists and Centre Assurance Statement

As part of the review process, the Education Review Office (ERO) asks the service provider/contact person of each licensed centre to complete a **Self-Audit Checklist** and a **Centre Assurance Statement (CAS)**. The information in each of these documents assists ERO in the scoping and planning of the review.

Completing the checklists and the CAS will be a useful process for your own self review. Please read the Guidelines for Centre Assurance Statement before completing these forms.

How to fill in the Checklists

The checklists cover requirements of key interest to ERO in the following standards:

- Curriculum
- Premises and Facilities
- Health and Safety Practices
- Governance, Management and Administration

Please complete each sheet and add any further comments or explanations on the sheet of paper provided. Please use extra paper if you need to. Attach any explanations or matters you are unsure about to the relevant sheet.

How to fill in the Centre Assurance Statement

After you have completed all the checklist sheets please complete and sign the CAS. The second page of the CAS is to note areas where you are aware that you are not meeting legal requirements. There is space for you to outline the circumstances and the action you are taking on each issue. This information will be very useful for you as well as for the review.

Please remember to attach your checklists to your Centre Assurance Statement.
